

Only in Dubrovnik: All reviews

Martin Dawes (a reader):

Duncan's book is sure to find those less hectic off-beat places in the city.

Laurent Eason (Instagram):

When we booked to go to Croatia, I had hardly any knowledge of where I was going, except a naively brief idea of the pretty streets of Dubrovnik's Old Town from *Game of Thrones*. This guide stood out as it seemed the most direct source of tips for history and culture...Now that I'm home, I am loving this so, so much – it is a very detailed reminder of all my favourite places and sights from our holiday, with the ideal amount of knowledge and history. I feel I can relive this holiday over and over, and I have browsed through the book so much recently. The photographs are gorgeous, too.

Croata Concept Store, Dubrovnik:

We would like to thank Duncan JD Smith - The Urban Explorer for mentioning the necktie as a national symbol of Croatia in his "Only in Dubrovnik" guide. The necktie is an originally Croatian product that began to spread worldwide in the 17th century when Croatian soldiers wore this elegant fashion accessory in their uniform. French soldiers noticed the necktie and recognized its value, introducing it to their own fashion culture.
